

Patricia Puienaru

Gundelfingen

Motivated Multimedia Design student with a strong interest in web development and UX/UI. Experienced in building responsive websites using technologies like HTML, CSS, JavaScript, and Vue. I enjoy turning ideas into functional and visually appealing digital products while continuously improving my technical and creative skills.

A person who is willing to learn can never be stopped

Skills

- HTML
- CSS
- Tailwind
- JavaScript
- Vue
- React
- Wordpress (PHP)

Languages

Danish: Advanced

English: Fluent

Romanian: Native

Education

(2025 - present)

SEA - Syddansk Erhvervsakademi

Currently studying Multimedia Design focusing on digital design, user experience (UX/UI), and front-end development. Through this program, I am developing skills in visual communication, web technologies, and creating user-friendly digital solutions.

IT School

(2024 - 2025)

Completed a Web Development course, where I learned the fundamentals of building websites, including HTML, CSS, JavaScript, and React, as well as basic responsive design. The course helped me understand how to structure, build, and develop modern, functional websites.

(2020 - 2023)

IB - International Baccalaureate Kolding Gymnasium

Developed strong skills in critical thinking, research, problem-solving, and time management while studying a diverse range of subjects. The program emphasized analytical thinking, independent learning, and collaboration through presentations, research projects, and written assessments.

Interests

I am a passionate language enthusiast who spends my free time exploring Romance languages. I currently hold a B1 level in Spanish and an A2 level in Italian. My daily study habit on Duolingo has not only built my vocabulary but has also strengthened my discipline, cognitive flexibility and cross-cultural awareness.
